

Mom/Dad:

Be ready for Easter. Begin coloring the eggs at the beginning of lent then one by one put them in a basket until the big day...easter morning... arrives.

The idea is that after a child finds the egg he must learn the verse, maybe for candy or even cash.

For double sided eggs copy onto heavy paper or cardstock and glue, tape, or staple the two halves together. For one sided waterproof eggs print on transparencies from local copy center.
